

Buckingham Pond Conservancy Priorities 2012

Our Mission:

Buckingham Pond Conservancy works to coordinate existing resources and identify new resources devoted to protecting, preserving, and enhancing Buckingham Pond and its surrounding green space

Our Strategies:

- Raise Awareness – Make sure all pond users and pond neighbors know about the Conservancy and have the opportunity to contribute their skills, knowledge and contacts to the effort.
- Raise Money – Make sure we have the resources to implement our goals.
- Build Relationships – Make sure we make the most of our network. Make sure we have strong relationships with City, County, Non-Profits, Educational Institutions and others.
- Increase our Scientific Knowledge – Make sure we understand the science of the pond’s water quality and tools that can be used to enhance and protect it.
- Practical Application – Make specific improvements to the pond and the greenspace around it.

Our Tactics:
